Microbiological definitions

Reference: Regulation (EC) No 2073/2005 on microbiological criteria on foodstuffs

n = number of units comprising the sample

c = number of sample units giving values between m and M

- satisfactory, if all the values observed are smaller than or equal to m
- acceptable, if a maximum of c/n values are between m and M, and the rest of the values observed are smaller than or equal to m
- unsatisfactory, if one or more of the values observed are higher than M or more than c/n values are between m and M

Claims & Legislation

General legal compliance

To the best of our knowledge, we herewith declare that the products produced by FrieslandCampina are in compliance with current European and local legislation. FrieslandCampina is a company selling cream and dairy (related) products and is approved by local authorities. To assure the high quality level we stand for, FrieslandCampina has several certified quality management systems in place. For more information and certificates, please address your direct sales contact.

GMO Declaration

To the best of our knowledge and based on statements of our suppliers, we herewith declare that this article does not contain any ingredients of GMO origin as mentioned in "Regulation (EC) 1829/2003 of the European Parliament and of the Council of 22 September 2003 on genetically modified food and feed". The product therefore does not have to be labelled as of GMO origin. Declarations and statements of suppliers are challenged as part of our supplier audit program.

Ionisation Declaration

To the best of our knowledge and based on statements of our suppliers, we herewith declare that products produced by FrieslandCampina Professional do not contain any ingredients which have been irradiated. Declarations and statements of suppliers are challenged as part of our supplier audit program.

Contaminants Declaration

To the best of our knowledge and based on statements of our suppliers, we herewith declare that products produced by FrieslandCampina comply with current European legislation regarding contaminants (including heavy metals, mycotoxins, pesticides, herbicides and dioxins). Statements are based on the national monitoring program for contaminants of milk and the HACCP risk assessment of the production plant. All results of the national monitoring program are below the maximum standards of the Dutch and EC legislation relating to contaminants. Declarations and statements of suppliers are challenged as part of our supplier audit program.

Liability declaration

This specification, provided to you by way of information, was drawn up as correctly, accurately and completely as possible, on the basis of our knowledge and experience at the moment of drafting. This specification, however, is the record of the product composition at the moment of drafting. We, as a producer, reserve the right to alter the product composition. Consequently, this specification may be subject to modification. Therefore, it is advisable to directly acquaint yourself with the most recent specification we as a producer have, in case an important decision with regard to further processing (also) depends on the composition of our product. In case of any question regarding this specification, please get in touch with your direct sales contact.

Allergen Declaration

To the best of our knowledge and based on statements of our suppliers and HACCP-teams of our plants, we herewith declare that products produced by FrieslandCampina comply with current European legislation regarding allergens (including cross-contamination). Declarations and statements of suppliers are challenged as part of our supplier audit program.
